

NJLA Technical Services Section Meeting
June 20, 2014
Somerset County Library, Bridgewater, NJ

1. Attendance

Adele Barree (Somerset County Library abarree@sclibnj.org), Marcia Lubansky (Bernards Township Library mlubansky@bernards.org), Beata Barrasso (Summit Public Library bbarrasso@summitlibrary.org), Susan Muntz (Livingston Public Library susan.muntz@livingston.bccls.org), Bob Egan (Raritan Valley Community College (regan@raritanval.edu), Teresa Bayles (Somerset County Library tbayles@sclibnj.org), Lynn Lampariello (Elizabeth Public Library lkrausse@elizpl.org), Mei Xie (Hudson County Community College mxie@hccc.edu), Eunkyong Ju (Clark Public Library aju@clarklibrary.org)

Minutes of the May 2, 2014 meeting were distributed.

2. Review of NJLA Conference Programs

Cathy Weng gave an excellent and clear RDA presentation within the time allotted. Very few of the evaluations were completed. We decided not to provide paper handouts and evaluations at the Conference programs in the future. All sessions will be posted on the NJLA wiki. There is currently a problem with the wiki; there is a message "Site under maintenance." Adele will send out an email to the TS list with attachments of the Conference programs and post the presentations when the wiki is available.

All programs were well-attended. Many people stayed to ask questions of Gary Saretzky in his *Preserving Your Photographic Treasures* session.

Unfortunately, the projector from Somerset County is now too old and problematic to use for programs. We will have to find another projector.

3. Review of RDA workshop by Cathy Weng and Yuji Tosaka

Many participants wanted a longer workshop. For a full-day program, it is easier to choose a workshop location where restaurants are close by for an "on-your-own" lunch, rather than order a catered lunch. This simplifies the planning process and reduces the cost significantly.

We will consider a full-day program; most requests were for RDA cataloging in different formats. Perhaps we could provide two workshops: one on RDA and one on authority control.

Adele will contact Jennifer Baxmeyer. Adele is interested in Princeton's BIBFRAME testing as well as suggestions for speakers. Teresa will contact the local MLA chapter for speaker suggestions/availability. We were all encouraged to look at other states' conference websites for workshop suggestions.

4. **Field Trip: Monmouth County Archives**

Adele will contact Gary Saretzky. Early October would be an ideal time. She will also ask for a small room for a meeting and coffee. Food is not allowed in the Archives.

5. **Other workshop/conference suggestions:**

- MarcEdit
- Digital collection maintenance/management in the age of ebooks, possibly with a panel format

We again mentioned the possibility of using software such as Adobe Connect or GotoMeeting.com to share presentations after the event. We will contact Cynthia Lambert, of the Emerging Technologies Section, to see what technologies might enhance our Section's ability to share presentations/workshops/meetings.

6. **Open discussion of various ILS systems and other cataloging questions and issues.**

7. **Next meeting** to be held on Friday, September 26 at Somerset County Library, Bridgewater. The meeting was adjourned at 12:00.
